

DYNASTY® Forage

Product Description

DYNASTY Forage is a chopped timothy/alfalfa hay blend. It may be used as a complete pasture, hay replacement or used to supplement existing forage. It is suitable for horses, cattle, sheep, and goats. DYNASTY Forage is not fortified with vitamins or trace minerals and should not be used to replace grain.

DYNASTY® Forage

For all classes of beef cattle and horses.

Crude Fat, min.	2.5%
Crude Fiber, max.	35.0%

INGREDIENTS

Timothy Hay, Alfalfa Hay, Molasses, Vegetable Oil, Propionic Acid.

1

Features and **Benefits**

Chopped form **allows for slow consumption and promotes chewing and saliva production, thus reducing the potential for digestive upset.**

Compressed 50 lb plastic bag **makes it convenient and easy to handle.**

Sun cured blend **provides animals premium forage.**

High fiber/low starch - **can be fed when hay quality is poor or when supplies are limited. Use with a grain ration when additional fiber and lower starch content is desirable to help promote good digestive flow and function.**

High palatability - **animals eat it readily.**

Less dust than hay - **reduces dust and mold exposure to horses, especially beneficial for horses with allergies to hay.**

Blister Beetle free - **provides a good alternative to traditional hays that may be contaminated.**

Feeding Directions

To supplement existing forage, feed at a rate of 4 to 6 lb/head/day. As the sole source of forage, feed at a rate of 1 to 1.5% of body weight.

Caution

DYNASTY Forage should not be used solely as a complete feed.
